Construction Blocks

Choose from our wide range of Construction Blocks -

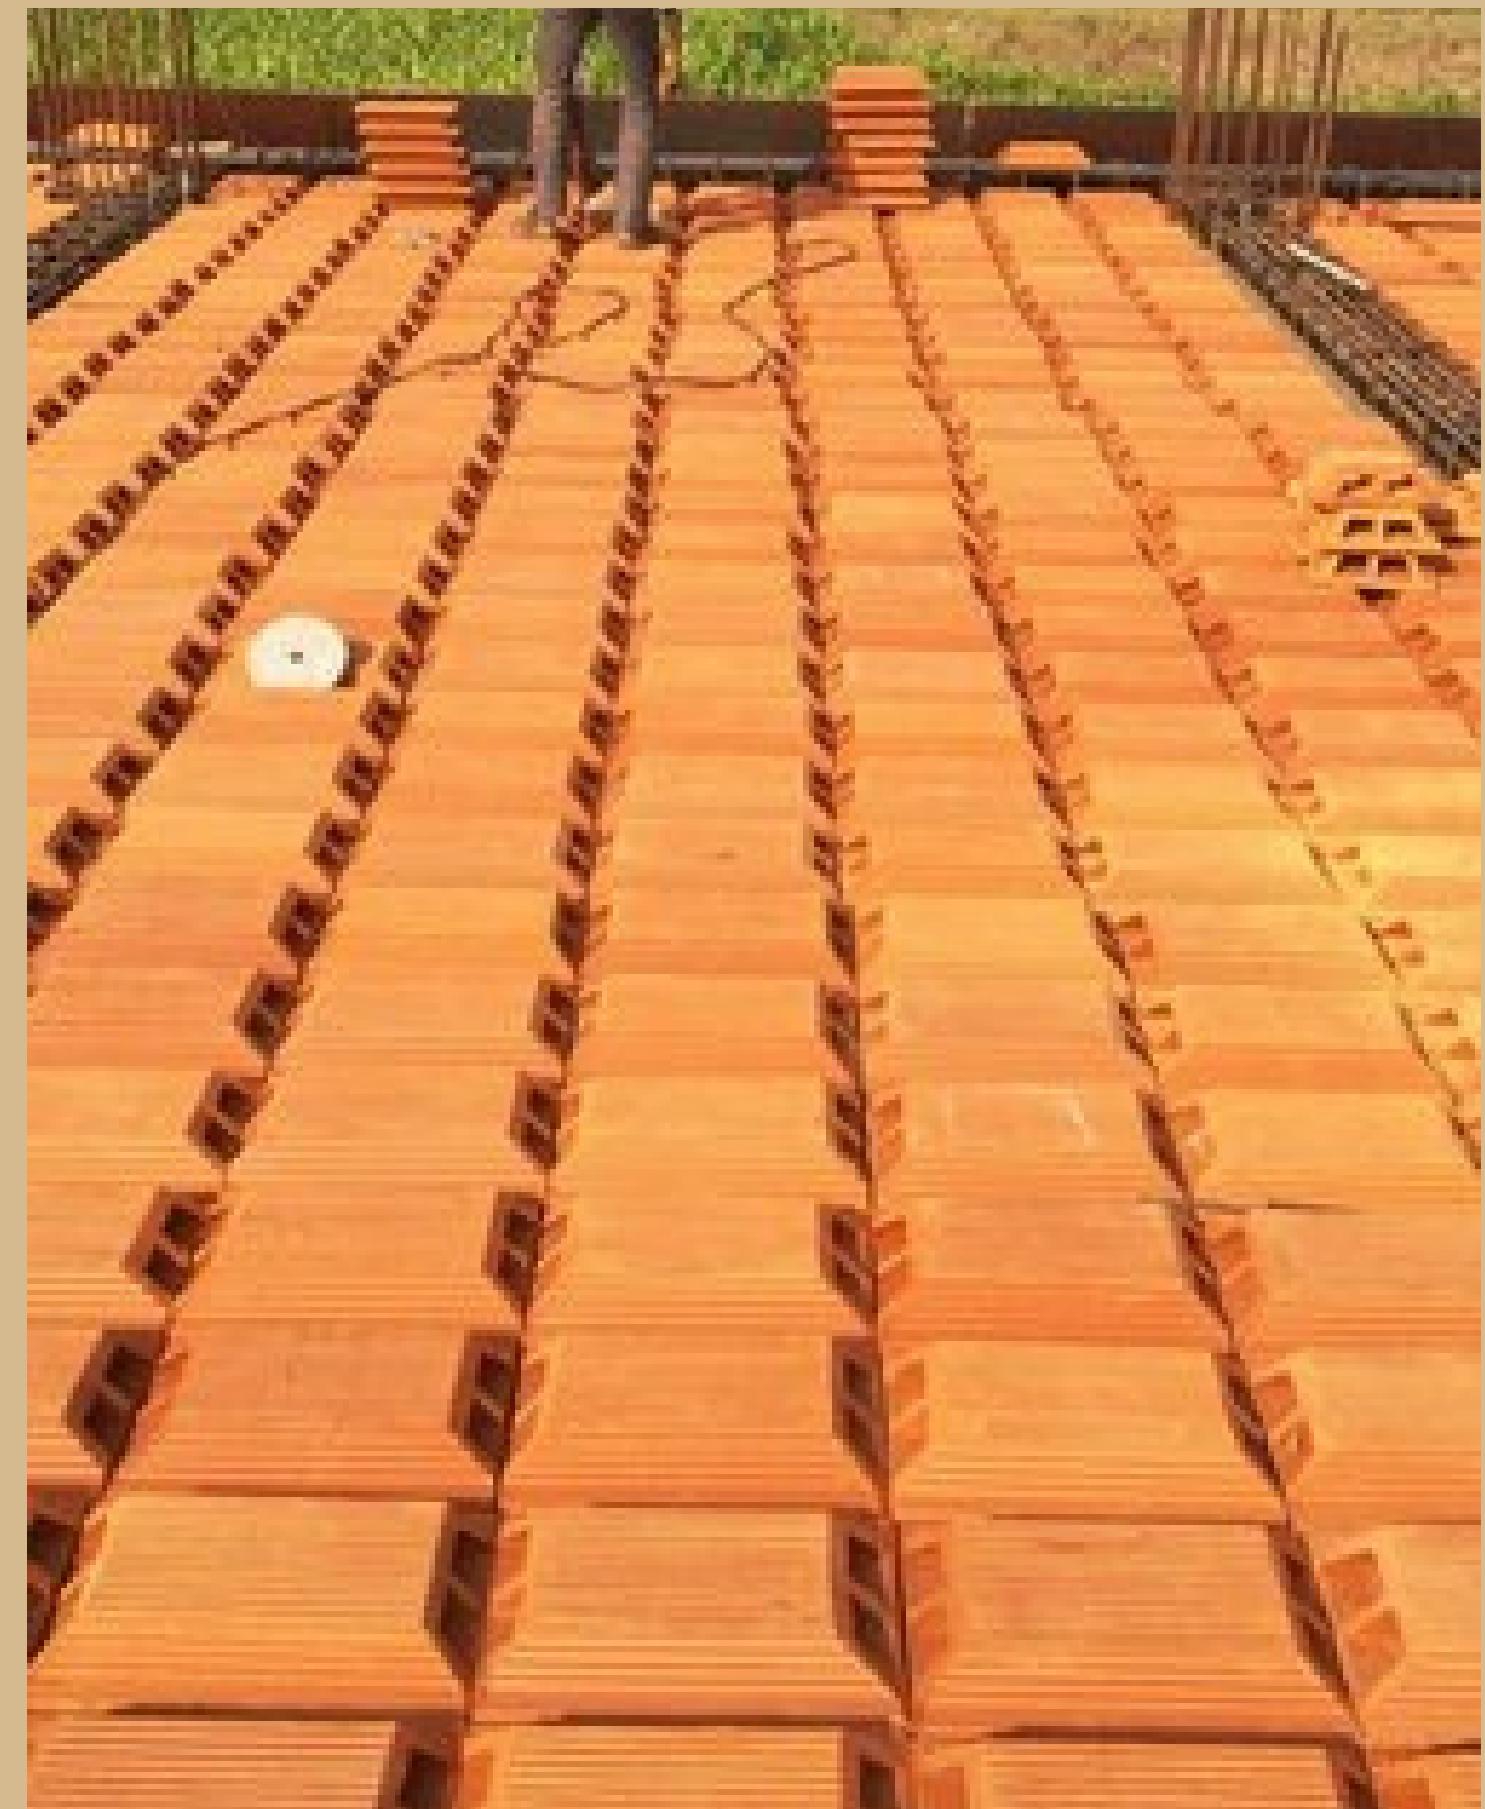

- Filler Slab / Slab Blocks
- Solid Bricks
- Hollow Bricks

Cost effective at least by 25%
compared to conventional RCC slab.

The aesthetic finish of our products
eliminates the need of plastering.

Infinia's CLAYMAGIX hollow
bricks being exceptional
thermal insulators contribute
towards energy saving.

Filler Slab / Slab blocks

1. Drastically reduces the dead load of the slab, in turn reducing the steel requirement.
2. Improves earthquake resistance of the building.
3. Reduces the requirement of concrete.
4. Substantial reduction in ambient temperature of the interiors.

Cost effective at least by 25% compared to conventional RCC slab.
